CHLORI-STRONG BLEACH

IN GALLON (3.5L)
PRICE: P366.00

PRODUCT INFORMATION

CHLORI-STRONG BLEACH

CHLORI-STRONG (BLEACH), SODIUM HYPOCHLORITE SOLUTION

A sodium hypochlorite solution, with a variety of uses. An excellent disinfectant and antimicrobial agent, effective for the disinfection of viruses, bacteria, fungi, and mycobacterium.

- Used to disinfect laundry at 100ppm or 25mL per 10kg laundry.
- Used to disinfect regular surfaces at 300ppm or 75mL in 10L of water.
- Used to disinfect surfaces contaminated with germs and viruses at 600ppm or 150mL in 10L of water.
- Used to disinfect fruits and vegetables at 50ppm or 12.25mL in 10L water.
- With incredibly good solubility/miscibility in water
- Easy to handle and store
- Just pour a measured amount directly to a measured amount of water and mix.

PRODUCT INFORMATION

CHLORI-STRONG BLEACH

CHLORI-STRONG (BLEACH), SODIUM HYPOCHLORITE SOLUTION

Scope of Application:

Disinfection of clothes and all types of fabrics. Cleaning and disinfecting of food processing equipment and food contact surfaces, also good for disinfection of various types of surfaces, table-tops, floors, walls, plastics, ceramics, and dishes.

WARNING: Bleach will cause corrosion to steel, stainless steel and chrome finished surfaces. Bleach solutions at their working concentrations will remain effective for about 4 hours only, as the active component, hypochlorite and hypochlorous ions dissipate with time.

PRODUCT INFORMATION

CHLORI-STRONG BLEACH

CHLORI-STRONG (BLEACH), SODIUM HYPOCHLORITE SOLUTION

Suggested Usage

12.25ml Chlори-Strong Add to ten (10) LITERS of water & mix for fruits and vegetables disinfection (50ppm)
